

# Installation

## (Re)Installing KeyLock

Follow the steps below to successfully (re)install KeyLock.

1. Download KeyLock
2. Execute the downloaded Setup
3. Follow the steps to install KeyLock

## Updates for KeyLock

KeyLock will automatically notify you when an update is available. This update will install after you have given permission.

## Transferring keys

When you want to install KeyLock on multiple PC's or user accounts with the same keys, follow the steps below to share your settings.

1. Start KeyLock on the source PC
2. Press "More Settings"

3. Press
4. Choose a file to save the keys on and press "Save"
5. Start KeyLock on the receiving PC
6. Press "More Settings"

7. Press
8. Select the files that has been made in step 4

KeyLock will automatically restart and the settings will be active afterwards.
